OBUSCATION IS BUREAUCRATS FAVORITE WEAPON

MOVING? Please use form inside paper and give full information. Mailing list is run on Friday for following week.

One of the rougher fops, which most of the T&V and Big Newspaper people don't been payin' too much attention to, is the civil war between private reporting systems and government reporting systems and various Bureaucrats and some members of Congress, notably Rep. Neal Smith of Iowa. The controversy stems from the fact that although USDA has large numbers of market reporters all over the place, the No. 1 vehicle used by the packers to keep posted on dropped meat prices is the "Yellow Sheet" and another private service called the "Meat Sheet". The Yellow Sheet is published by the National Provisioner outfit, which is the leadin' publication read by all packers and dealers in provisions. Smith tried to shoot the Yellow Sheet down with some very prejudiced hearings and reports, and he was olded and abetted by many to the meat business (CONT. ON PAGE 14)

Dollar Volume Seen at About \$29 Billion in Fiscal 1978-1979 With Trade Surplus Gain of \$1.5 Billion

Washington - U.S. agricultural exports in fiscal year 1978 are expected to rise about 5 percent from last year's record total of \$27.3 billion to about \$29 billion, according to the U.S. Department of Agriculture. The forecast was released by Thomas R. Saylor, associate administrator of the Foreign Agricultural Service, in remarks at the Department's annual Food and Agricultural Outlook Conference on Nov. 14. Saylor said export volume may change little from the record 122 million tons of fiscal 1978, but that higher average prices for major export commodities were expected to push export value to the new high. He said agricultural imports are forecast at \$14.1 billion, which would produce an agricultural trade surplus of \$14.9 billion, about \$1.5 billion more than in fiscal 1978. Foreign demand is strong, particularly for soybeans and protein meal, Saylor said, noting that the United States will be the only major supplier of those commodities until the Brazilian soybean harvest next spring. He said export volume increases were likely for soybeans, tobacco and some other crops, but that large increases in grain production in much of the world could push U.S. grain export levels slightly below those of last year. He said the U.S. export outcome, which could range from \$26 billion to \$32 billion, will depend to a large extent on what happens to Southern Hemisphere crops of wheat, coarse grains and soybeans between now and next spring. Favorable harvests could produce increased competition for world markets beginning around the first of the year. He said world economic developments, trends in the value of the dollar, and domestic and trade policy decisions made in agriculture by U.S. and foreign governments as other factors that will bear on the level of U.S. agricultural exports. U.S. farm exports to the developing countries are expected to expand more than a tenth in value in 1978/79. The largest increases are anticipated for shipments to East and Southeast Asia and the Middle East. Exports to the developed countries will likely continue to expand, with most of the gain expected in exports to Japan. Larger exports to the PRC and Eastern Europe are expected to more than offset the reduction in shipments to the USSR.

Storm Markets Bring Higher Fed Cattle, Hog Prices at Major Markets Monday

The winter storm that lashed much of the Nation's midsection Monday curtailed receipts at the terminal markets and brought forced trading at most points which meant higher prices for fed cattle and hogs at all points on packers' propped for supplies. Slaughter cows and bulls were fully steady, apots 50¢ to \$1 up. Price trends, quotations on choice and prime fed steers and heifers and on the mixed good and choice grades and US 1-3 hogs ending mostly 200 to 280 pounds included. Omaha fed cattle 50¢ to \$1 higher. Steers \$55.25 to \$56.75 and \$54.75 to \$56.25; heifers \$55.25 to \$54.75 and \$52.50 to \$53.25. Steers fully steady, choice 25-50¢ higher at \$48 to \$50.75. Steers City fed cattle 50¢ to \$1 higher. City steers \$1.50 to \$1.75 higher, heifers \$1.50 to \$2 higher. Steers \$54.50 to \$55 and \$54 to \$55; heifers \$53 to \$54.75 and \$52.50 to \$53. Hogs steady to 25¢ higher at \$48.25 to \$50.25 on 200-250 lb. weights. Peoria \$1 higher, 50¢ to \$1 higher, heifers 50¢ to \$1 higher. Steers \$54 to \$55.25 and \$54.50 to \$55.25; heifers \$51 to \$54.25 and \$50 to \$52. Hogs steady at \$45 to \$51. St. Paul fed cattle 50¢ to \$1 higher. Steers \$53.50 to \$55 and \$52.50 to \$54.75.

Pybas Simmental
Bull Sale Dec. 2
Near Gainesville

Gainesville, Texas — J. E. and Barbara Pybas, owners of Pybas Ranch, will hold their 5th annual bull sale at the ranch located 18 miles northwest of Gainesville on Farm Road 1201 (Sivella Bend Road) at 1 p.m., Saturday, Dec. 2.

They will be selling 80 service-age yearling and two-year-old bulls that are halfbloods, three-quarters and seven-eighths Simmental from Pybas Hereford base. They are sired by top Simmental sires such as Apollo, Giant and Extra.

J. E. Pybas has been in the cattle business since 1948 with one of the top commercial Hereford herds, and was one of the first Simmental breeders in Texas, having been breeding Simmental nine years, and one hundred percent by artificial insemination for the past seven years.

"We have found that these bulls will add weaning weight, and we guarantee that they will put 80 pounds more weaning weight on calves than British bulls will," Pybas said.

"Simmental cross cows are the best commercial cows I have ever seen, and I don't know how you can beat them," he added.

Jack Dillard, Waikom, will be auctioneer for the sale. Lunch will be available.

For further information contact J. E. Pybas Ranch, Star Route, Gainesville, Texas 76240, phone 817/665-9648.

Angus Journal Sale
To National Assn.
Set for July 1979

The American Angus Association, St. Joseph, Missouri, and the owners of the Aberdeen-Angus Journal, Webster City, Iowa, have signed a letter of intent for the American Angus Association to purchase the Journal, according to a joint announcement by Gilman Stewart, Association president and Murray G. Fraiz, president and publisher of the Journal.

The agreement was reached at a meeting of the Board of Directors of the American Angus Association on Sunday, November 12 in Louisville, Kentucky. Under terms of the agreement, the present ownership of the Aberdeen-Angus Journal will continue to publish the magazine through the annual Red Release Edition in June 1979. The American Angus Association will assume ownership and responsibility for the Journal beginning with the July 1979 issue, and the magazine will be published at the Association headquarters to St. Joseph, Missouri. The actual contract for purchase of the Journal will be negotiated in the near future. Preliminary plans, however, call for an expanded coverage of Angus events and an increase in circulation to include all active 110 members of the American Angus Association, according to Dr. C. K. Allen, executive secretary of the American Angus Association.

The Aberdeen-Angus Journal was founded in 1919 by the late Fred Hahn at Webster City, Iowa. The first issue was published on August 19, 1919. The Hahn family still has part ownership in the Journal along with Murray G. Fraiz, president and publisher.
